Education

Vellore Institute of Technology, Vellore

2023 – 2027

B.Tech. in Computer Science & Engineering (IoT Specialization) — CGPA: 9.13 / 10

Experience

Samsung R&D Institute India – Bangalore

May 2026 – Present

Research and Development Intern

Project: Autonomous Interaction Management Framework For Dynamic Site Handling

- Engineered an AI-powered browser automation framework using Playwright, FastAPI, LLMs, and DOM analysis, implementing a hybrid DOM-first, Vision-on-Demand execution pipeline that autonomously interacts with dynamic web applications while minimizing unnecessary visual inference.
- Architected an intelligent retrieval and reasoning pipeline using RAG, prompt engineering, semantic DOM understanding, and browser automation, improving execution reliability for dynamic workflows as part of an industry-sponsored research initiative targeting patent/publication outcomes.

Tech Stack: Python, Playwright, FastAPI, LLMs, RAG, Prompt Engineering, Browser Automation

Projects

CareerPilot AI—AI-Powered Interview Preparation Platform 🚀

React.js, Node.js, Express.js, MongoDB, JWT, Google Gemini, Puppeteer, Multer

- Designed and developed an AI-powered interview preparation platform using React.js, Node.js, Express.js, MongoDB, Google Gemini, Puppeteer, and JWT that analyzes resumes and job descriptions to generate personalized interview reports, match scores, skill-gap analysis, and role-specific interview questions.
- Engineered secure authentication, resume upload and parsing with Multer, scalable REST APIs, interview report history management, and responsive React dashboards, delivering a seamless end-to-end user experience for AI-driven interview preparation.

StarTube – Interactive Media Sharing Platform 🚀

Node.js, Express.js, MongoDB, JWT, Cloudinary, Multer

- Designed and implemented a scalable backend architecture using Node.js, Express.js, MongoDB, JWT, Cloudinary, and Mongoose, supporting authentication, video uploads, playlists, subscriptions, comments, and watch history through RESTful APIs.
- Optimized backend maintainability by leveraging reusable middleware, centralized error handling, schema validation, and modular MVC architecture for efficient request processing and resource management.

Skills

- **Programming Languages:** C++, Java, Python, JavaScript, SQL
- **Frontend:** React.js, Redux Toolkit, HTML, CSS, Responsive UI Design
- **Backend:** Node.js, Express.js, FastAPI, REST APIs, JWT Authentication
- **Databases:** MongoDB, MySQL
- **Artificial Intelligence:** Large Language Models (LLMs), Prompt Engineering, RAG, LangChain
- **DevOps & Cloud:** Docker, Jenkins, AWS, Linux
- **Tools:** Git, GitHub, Postman, Playwright, Puppeteer, VS Code

Certificates

- Oracle Cloud Infrastructure 2025 Certified DevOps Professional – Oracle 
- Generative AI using IBM Watsonx – IBM 
- Python Foundation Certification – Infosys 
- Database Management System – Infosys
